

Line 700

induction hobs and WOK

All units are made of CrNi 18/10 class AISI 304 stainless steel with 1.5 mm thickness top plate. The base legs are made of stainless steel and are height adjustable. The whole unit complies with protection IP24. The unit 700 specifications include high performance, pressed tanks with round internal angles and ergonomic front panels with operating and control elements.

- the entire device's shell is made of stainless steel AISI 304; the upper pressed plate of 1.5 mm thickness
- 6-degree regulation
- control by rotary switch with integrated potentiometer
- induction power is expressed in numerical values on the label
- generators cooled by fans
- suction shaft protected with filter
- low rear chimney with cast iron grill
- version E - top plate with $\varnothing 230$ mm inductor of 3.5 kW power input
- version ES - top plate with $\varnothing 230$ mm inductor of 5 kW power input
- glass thickness - 6 mm
- $\varnothing 300$ mm WOK working area
- version E - WOK source of 3.5 kW power input
- version ES - WOK source of 5 kW power input
